Secretary Mary Lou Moser

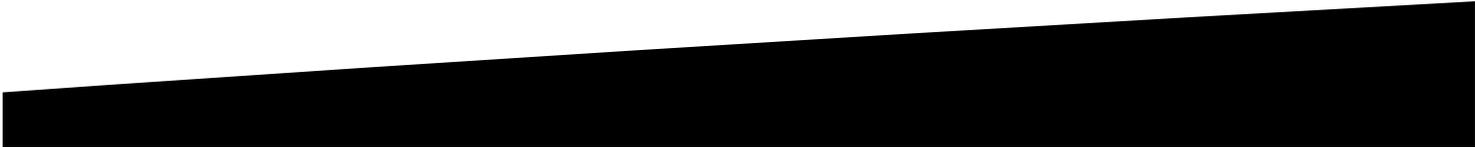

Chair Jill Derby called the meeting of the Board of Regents to order at 8:15 p.m. on Wednesday evening, August 5, 1998 in the Conference Room of Berg Hall, Great Basin College, with all Regents present except Mrs. Gallagher. Dr. Derby expressed the appreciation of the Board for the dinner served by GBC Chef Xavier Leveau and his staff.

Chancellor Jarvis related he has asked the presidents and was also asking for Regent support that if they hear from constituents they should follow through with the chancellor and president. Dr. Jarvis stated that he has conveyed to Dr. Richardson that he, Dr. Richardson, can make a difference in this situation. The Chancellor stated that the System has a process for handling this matter, but it is not being used, so he is pressing the issue.

Mr. Rosenberg stated that he felt this was a culture problem of long standing and that it wasn't a matter of the manner in which classes are taught. They are taught evenly at both institutions. He felt the problem lies with the attitude that the two institutions have toward their students and what their students need. The community college tends to nurture the student more than a university does and a lot of the problem for the student in the transition isn't the classes, although that is where it tends to be brought out. However

Kuhlman and Deputy to the Chancellor, Suzanne Ernst, published the revised document.

A Task Force was formed to work with Presidents Harter & Moore and Clark County School District (CCSD) Superintendent Dr. Brian Cram. Three southern regents were assigned to the Task Force: Mrs. Thalia Dondero-chair, Mr. David Phillips, and Mr. Mark Alden.
- A new ad hoc committee was created to address Regent Develot

Mr. Alden moved approval of the revised salary schedules. Mr. Wiesner seconded. Motion carried.

9. Approved Distinguished Nevadan Committee Report - Chair Dorothy Gallagher reported the Distinguished Nevadan Committee met on July 2, 1998 to review the procedures for the Regents' Distinguished Nevadan award and recommends changes to the procedures as found in Ref. D on file with the permanent minutes.

9.1 Approved Handbook Revision, Distinguished Nevadans - The Committee reviewed the policy on Distinguished Nevadans (Title 4, Chapter 1, Section 11) and recommended revisions as contained in Ref. D on file in the Board office.

Dr. Eardley asked in reference to item #3 if institution presidents could nominate individuals, with Dr. Derby clarifying that a president could bring their suggestion to a Regent who could then bring forth a nomination for Distinguished Nevadan. Mr. Rosenberg stated that the Board members would take suggestions from anyone but that only a Regent could nominate someone for the award.

Dr. Derby asked in reference to item #4 whether more than five individuals would be notified in accordance with the provisions of the Open Meeting Law for a closed session discussion on an individual. Mrs. Gallagher replied that it was the Committee's intent that only five names would be brought forward for discuss

Ms. Berkley entered the meeting.

Dr. Derby asked the Committee what did not work well with combining those awards at this reception, with Mrs. Gallagher responding there is an excessive cost to holding these events twice yearly (one in the north and one in the south.) Mr. Graves stated he did not feel that cost was a good reason to split up the events. Dr. Eardley agreed with Mr. Graves. Mr. Rosenberg stated the Committee had intended to highlight the "Regents' Award" as something distinct and separate from the campus awards. Mrs. Price commented that at some point the state will be too large to handle the number of people with one reception. She added that the individual campus recognition might allow each individual to stand out more. President Crowley commented that the campuses could not logistically hold their receptions at any other time of year, Regents would find it difficult to attend in large numbers and the event would lose its luster. Dr. Crowley added that if cost was a consideration the institutions would be willing to share in \_\_\_\_\_

Dr. Crowley stated that with the changes made to item #6, there was no need for item #10. Mrs. Gallagher agreed to strike the item from the list.

President Crowley suggested adding language to item #4 that allowed for extenuating circumstances for nominating a Distinguished Nevadan Award at any time during the year. Dr. Derby asked if such a nomination would be counted as one of the five total. Mrs. Gallagher stated that would be determined on a per case basis. Mrs. Price suggested leaving the language to serve as a strong guideline to limit the number of recipients. Ms. Berkley expressed her concern for limiting the number of recipients causing the award to go to individuals who have given the most money to the institution. Mr. Rosenberg disagreed strongly adding that the committee's intent

view that the endowment needs to be protected. He added that the political reality is that the next legislature will focus on the \$31.8 million in gains and their interest will be in protecting what they need to spend in General Fund dollars. The System is seeking to compromise by providing \$6 million of the \$43 million request. The objective in protecting the endowment is to ensure that future students will receive the same level of

The student share of the request will be represented by a 34.2% percentage increase over the last biennium, which is generated from an increase in the number of students and increases in registration and tuition fees.
